## NEWS AND NOTES

**Ed Sidote** was honored as "Volunteer of the Year for New York" by the American Hiking Association for his work with the FLT. This award is given annually for outstanding contributions and for providing consistent support for trail planning, development or maintenance of trails. Congratulations to Ed and we thank him for his many years of providing tireless service to the FLT.

**Aqua Terra Update:** New trails were developed in this county park by our Club, starting with a work day on National Trails Day on June 2. There will be continuing effort to add to the trail system and mark them. At this point, there are easy- to-follow trails leading from the pond area, to the east and north, they have been flagged with bright orange flags. We also purposefully made them wide enough for x-ctry skiing.

**Fall Banquet:** The TCHC Fall Dinner and Meeting will be held around November 9th. We are not yet sure of the exact location or date, but please put a placeholder in your calendar for this event. The next newsletter will contain specific information and a reservation form.

**Congratulations to John Wiley** on reaching his 40th anniversary as a TCHC member. John has contributed in many ways to the Club's work over his many years with us. He still maintains a stretch of the FLT near Oxford, and helps as a hike leader and as a knowledgeable authority on the Club history and the area trails.
